

VOTE YES ON NOVEMBER 8TH

CLEAN WATER, CLEAN AIR, AND GREEN JOBS BOND ACT

New York voters have a once-in-a-generation opportunity to protect clean water, update infrastructure, and improve quality of life in every county of the state.

Safeguard clean drinking water, our most priceless resource

Support nearly **100,000** family-sustaining **jobs**

Update infrastructure including roads, sewers, and drinking water pipes

Conserve wildlife habitats, farms, forests, wetlands, and more

If approved by voters, the Clean Water, Clean Air, and Green Jobs Bond Act will:

SAFEGUARD DRINKING WATER

New York's rivers and lakes supply drinking water to millions of New Yorkers every day. The Bond Act will invest at least \$650 million to protect clean drinking water by replacing lead pipes, expanding sewers, updating water treatment plants, and preventing pollution and runoff.

PRESERVE FARMS AND FORESTS

From Ellis Island to the Adirondack Mountains, New York is defined by its unique, natural scenery. Parks, forests, and farms provide mental and physical health benefits. The Bond Act will invest at least \$650 million to conserve open space, protect family farms, and expand access to parks, campgrounds, and nature centers.

STRENGTHEN NEW YORK'S ECONOMY

Replacing lead pipes, updating sewers, fixing roads, and retrofitting buildings – all create jobs. The Bond Act will help revitalize local cities, towns, and villages by supporting nearly 100,000 good, local, family-sustaining jobs.

ADVANCE ENVIRONMENTAL JUSTICE

Every New Yorker deserves clean air to breathe, clean water to drink, and access to nature. But not everyone does. The Bond Act will help advance environmental justice by directing at least 35-40 percent of total funding to disadvantaged communities, those most harmed by pollution.

UPDATE COMMUNITY INFRASTRUCTURE

The Bond Act will invest at least \$1.1 billion to update aging or failing infrastructure and conserve wildlife habitats. Funds will help update roads, bridges, and stormwater systems and repair wetlands, forests, and shorelines, improving quality of life and saving taxpayers' money.

IMPROVE PUBLIC HEALTH AND SAFETY

Bond Act programs will bring cleaner air to breathe by investing \$1.5 billion in projects that cut pollution. Funds will help expand clean energy infrastructure; retrofit public buildings; plant street trees; build green roofs; create community gardens; purchase clean school buses; and build cooling centers that save lives during heatwaves. These projects will increase energy reliability and improve public health and safety.
